PROFESSIONAL EXPERIENCE

Robust Agency 08/2025 – Present
Software Engineer (Frontend)

- Developing production-ready core architectures for **Locum Hero**, **Checky Pro**, **2250 Retail App**, **Resaia**, and **Mutabik AI**.
- Translating complex high-fidelity Figma dashboards into modular web components using React and customizable state layouts.

Affinity Vibzes 01/2024 – 12/2024
Customer Service & Continental Car Hire Support (UK)

- Managed real-time fleet logistics and enterprise client interfaces for a fast-paced transportation network.

Abacus 4 Months
B2B Support Specialist (Careem KSA)

TECHNICAL & ENGINEERING PROJECTS

Locum Hero — Healthcare Staffing Ecosystem

Architected responsive user tracking interfaces and shift-scheduling dashboard modules. Integrated clean state architecture using React and Tailwind CSS to ensure real-time medical professional placement synchronization.

Checky Pro — One-Page Checkout System

Engineered a highly customizable checkout module designed to minimize cart abandonment and drop-off costs. Integrated dynamic vendor payment architectures using React.js and Tailwind CSS.

2250 Retail App — In-Store Skin Analysis

Developed an in-store client-facing web application for mobile and tablet views. Implemented modules to display interactive AI skin evaluations and custom formula mixing parameters on-site.

Resaia — Global AI Governance Engine

Built interactive UI dashboards designed for AI governance framework certification and compliance tracking, streamlining structures for ethics practitioners globally.

Mutabik AI Dashboard Architecture

Architected cross-platform interfaces and intelligent data panels for specialized analytics models, utilizing high-fidelity Figma translation frameworks and modular layout rendering.

Weather Dashboard & Movies Ecosystem

Created responsive multi-view applications calling asynchronous REST APIs to parse, process, and clean-render live server feeds dynamically.

Logic-Driven App Suite (React & Vanilla JS)

Engineered complex client-side calculations for customized functional tools: **Budget Tracker**, **Eat n Split Bill Manager**, and localized learning components.

PROFESSIONAL PROFILE

Highly motivated Frontend Developer with a BS in Software Engineering. Proven track record building robust interactive platforms, translating strict Figma metrics into reusable UI, and engineering production-level solutions inside modern application frameworks.

TECHNICAL SKILLS

Core Frameworks

React.js Next.js TypeScript
JavaScript (ES6+)

State & Data

Redux Toolkit Redux Thunk
TanStack Query Context API
REST APIs Calling

UI & Styling

Mantine UI Shadcn/ui Tailwind CSS
React Hook Form HTML5 / CSS3

Tools & Engineering

Git / GitHub SSH Security VS Code
DevTools

EDUCATION

BS Software Engineering

The Orbit Institute
Affiliated with GCUF

ICS (Computer Science)

Govt. Higher Secondary School
2016 – 2018

LANGUAGES

- English (Professional)
- Urdu (Native)
